Statement of significant changes

Household Charges 2022/23

January 2022

Pure knowh₂ow

South East Water

Statement of significant changes

Overview

The purpose of this statement is to provide our stakeholders with information on changes to our household charges for 2022/23.

This information is provided in accordance with the charges scheme rules issued by Ofwat. This statement should be read in conjunction with the Board assurance statement for charges schemes 2022/23.

Significant changes

We confirm that there has been no significant change to household charges between 2021/22 and 2022/23 and that it is not expected that there will be any bill increases of more than 5% from the previous year (for a given customer type assuming a constant level of consumption).

Stakeholder engagement

We welcome feedback and comments from retailers and other stakeholders with regard to the structure and content of our tariffs to inform future strategy.

Please send your observations or queries in relation to this proposal to:
